

Table of Contents

8 Soils, Landforms and Permafrost 8-1

8.1 Introduction..... 8-1

8.2 Methods..... 8-3

8.2.1 Study Areas..... 8-4

8.2.2 Information Sources..... 8-8

8.2.3 Field Studies..... 8-12

8.2.4 Landform Characterization 8-15

8.2.5 Aerial Photograph Interpretation 8-27

8.2.6 Permafrost Characterization..... 8-27

8.3 Baseline Conditions 8-29

8.3.1 Regional Overview 8-29

8.3.2 Tundra Ecological Zone..... 8-68

8.3.3 Transition Forest Ecological Zone..... 8-81

8.3.4 North Taiga Plains A Ecological Zone 8-84

8.3.5 North Taiga Plains B Ecological Zone 8-87

8.3.6 South Taiga Plains A Ecological Zone 8-89

8.3.7 South Taiga Plains B Ecological Zone 8-90

8.3.8 Northwestern Alberta..... 8-92

References

9 Vegetation..... 9-1

9.1 Introduction..... 9-1

9.1.1 Baseline Study Objectives 9-1

9.2 Methods..... 9-3

9.2.1 Vegetation Study Areas 9-3

9.2.2 Vegetation Classification and Mapping for the
Local Study Area 9-3

9.2.3	Satellite Image Interpretation and Mapping for the Regional Study Area.....	9-14
9.2.4	Rare Plant Surveys.....	9-17
9.2.5	Uncommon Plant Communities.....	9-18
9.2.6	Tall Forests.....	9-19
9.2.7	Traditionally Used Plants and Collecting Sites	9-19
9.2.8	Revegetation Monitoring	9-19
9.2.9	Persistent or Invasive Non-Native Plants	9-22
9.3	Baseline Conditions by Ecological Zone.....	9-25
9.3.1	Vegetation Classification of the Local Study Area.....	9-25
9.3.2	Vegetation Classification for the Regional Study Area.....	9-103
9.3.3	Rare Plant Reconnaissance Surveys	9-113
9.3.4	Uncommon Plant Communities.....	9-140
9.3.5	Tall Forests.....	9-143
9.3.6	Traditionally Used Plants and Collecting Sites	9-146
9.4	Revegetation Monitoring	9-153
9.4.1	Tundra Well Site Revegetation.....	9-153
9.4.2	Taiga Pipeline Revegetation	9-156
9.4.3	Persistent or Invasive Non-Native Plants	9-159
